

# Pioneers in Sustainable Energy Efficient Air Treatment Solutions Worldwide

---

# Bry-Air America

## Proud Lineage

- Art Harms started Bry-Air in 1964 and a decade later his daughter Jill & son-in-law Paul Griesse took over the business.
- The Griesse family grew the business globally and made the brand world famous, with the Dutch partners for Europe, their Latin American licensee for south America and their partner, Deepak Pahwa, for the rest of the world.
- For the past decade, the Bry-Air brand had been licensed in North America to the entity Bry-Air Inc.
- As of 2025, Bry-Air, the parent entity, is now directly present in North America, ensuring customers have direct access to our advanced technologies, innovation, and customer-centric approach. Under the leadership of Paul Griesse, we are committed to serving North American customers with the highest standards of excellence.

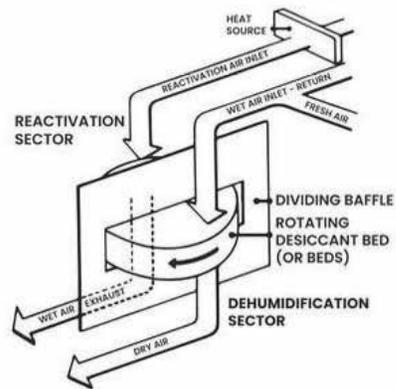

Arthur G. Harms

Bry-Air USA was born in 1964 in USA as an offshoot of Bryant, A Division of Carrier Corporation

Arthur G. Harms daughter Jill and her husband Paul Griesse expanded the business globally

Inventor of the Rotary Silica Gel Dehumidifier

**Bry-Air America**

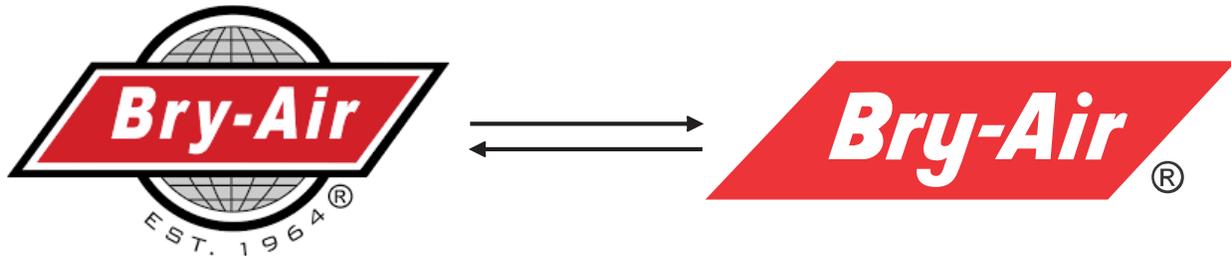

# Global Spread, American Roots

---

- Energy efficient BrySmart dehumidifiers
- MiniPAC range of compact dehumidifiers (100 ~ 2700 CFM)
- Waterless plastic resin dryers
- Passive desiccant wheels
- Novel material thermal desiccant wheels with low temperature regeneration (80~90°C / 175~195°F)
- Similar wheels in heat pump based units
- Low dew point battery units breaking global barriers in energy consumption
- Contactors for CO2 concentration/removal, VOC concentrators

# Bry-Air America—New Avatar

- With this new transition in 2025, now Global Bry-Air interests are represented by the same entity everywhere.
- Many of the cutting-edge solutions were not previously available in the US through our former licensee.
- Now, with our direct presence, we bring the full spectrum of Bry-Air's expertise and innovations to North America.
- Bry-Air has always been customer-centric, and with our direct presence, we reaffirm our commitment to delivering world-class solutions directly to our customers.

**Bry-Air directly present in the USA...NOW!**

# Meet the North America Team:

## DRI America, Your Direct Bry-Air Affiliate

### WHO WE ARE

- Headquartered in Columbus, Ohio, the DRI America team serves as the exclusive North American affiliate and lead distributor for Bry-Air—bringing world-class air treatment solutions closer to home.
- From design to delivery, we support customers across the U.S. and Canada with tailored solutions, fast service, and expert communication.
- We bring Bry-Air's global innovations directly to North America—without delay, without compromise.
- Our culture prioritizes fast response times, deep product knowledge, and long-term customer success.

### WHAT WE DO

- We service our own product line and also offer parts and support for other dehumidification systems.
- Fast parts availability and in-stock inventory across North America ensure quick shipping and minimal downtime.
- Our local team is fully trained in Bry-Air's global technologies—including advanced systems now newly available to the U.S. market.
- We partner with OEMs, facility managers, engineers, and contractors to deliver complete air treatment solutions.
